# WHAT IS MOBIFONE PROXY?

MobiFone Proxy is a Vietnamese residential proxy with the MobiFone carrier option in our order system. VPSTTT currently offers Shared Residential for this carrier.

Shared Residential Proxy splits each IP among up to 4 users, a good fit when you need Vietnamese residential IPs at a lower cost.

MobiFone is preselected on the product page and kept when you move to the order system, so your order records the carrier you chose.

**MobiFone**
Carrier preselected when ordering

**4 users**
Maximum sharing per IP

**100Mbps**
Network port, HTTP(S) and SOCKS5

# MOBIFONE PROXY HIGHLIGHTS

1

## The right carrier

Orders are sent with the MobiFone carrier option.

2

## Shared residential IPs

Each IP is shared by up to 4 users at a lower cost.

3

## Check ASN and location

Verify IPs against your target platform before scaling.

4

## HTTP(S) and SOCKS5

Whitelist IP or User/Pass authentication, by package.

5

## Test before you scale

Start small, measure latency, then buy more.

6

## Hands-on setup help

We help with protocol, authentication and tool setup.
