VPSTTT

WHAT IS VIETTEL PROXY?

Viettel Proxy is a Vietnamese residential proxy with the Viettel carrier option in our order system. VPSTTT currently offers Rotating Residential for this carrier.

Rotating Residential Proxy changes IP per session, for tasks that cycle through Vietnamese residential IPs without keeping one fixed address.

Viettel is preselected on the product page and kept when you move to the order system, so your order records the carrier you chose.

Viettel
Carrier preselected when ordering

Per session
Residential IP rotates per session

100Mbps
Network port, HTTP(S) and SOCKS5

VPSTTT

VIETTEL PROXY HIGHLIGHTS

1

The right carrier

Orders are sent with the Viettel carrier option.

2

Rotates per session

Each session can use a new Viettel residential IPv4.

3

Check ASN and location

Verify IPs against your target platform before scaling.

4

HTTP(S) and SOCKS5

Whitelist IP or User/Pass authentication, by package.

5

Test before you scale

Start small, measure latency, then buy more.

6

Hands-on setup help

We help with protocol, authentication and tool setup.

VPSTTT
