WHAT IS RESELLER VPS NVME?

Reseller VPS NVMe lets you resell virtual servers running on high-speed NVMe drives. You create, sell and manage VPS for end customers under your own brand.

There is no need to buy physical servers or run a data center. VPSTTT provides the infrastructure, resources, management system and technical support.

It suits hosting/VPS sellers, technical agencies, MMO teams, software companies and individuals expanding their server catalog.

WHY CHOOSE VPSTTT RESELLER VPS NVME

1

Run your own business

Create plans, set prices and manage customers under your brand.

2

Run by VPSTTT

Servers, network, backups and engineers maintained by VPSTTT.

3

Fast activation

Provisioned right after payment; easy create, delete and upgrade.

4

Split resources freely

Divide vCPU, RAM, storage and IPv4 into plans for each audience.

5

Clear add-ons

CPU, RAM, NVMe and IPv4 priced separately to plan your margin.

6

Easy to scale

Add resources, IPs or storage, or move to a larger plan.
