VPSTTT

WHAT IS VPS SCIENTIFIC LINUX?

VPS Scientific Linux is a virtual server set up for fast deployment of Scientific Linux 7.4, with its own CPU, RAM, storage and IP and full admin rights.

Scientific Linux is an RHEL-based environment for research software, labs and older scientific applications, suited to simulation, specialist software and systems that must stay compatible. It is a preservation environment, not a default choice for new Internet projects.

At VPSTTT you choose one of four hardware lines: Intel Platinum, AMD EPYC, Ryzen 9 or Intel Gold.

SL 7.4

Scientific Linux 7.4 preinstalled

10 Gbps

Network port, enterprise NVMe storage

24/7

Technical support, regular backups

VPSTTT

VPS SCIENTIFIC LINUX HIGHLIGHTS

1

The right version: 7.4

A dedicated Scientific Linux 7.4 image; switch OS before ordering.

2

YUM/RPM for older software

Recreate the environment your scientific tools depend on.

3

Reproducible research

Keep the OS, libraries and compilers close to the original.

4

Isolate legacy workloads

Run in a separate, restricted VPS instead of touching production.

5

Enterprise NVMe

Fast reads and writes for batch jobs, simulation data and logs.

6

Deployment support

VPSTTT checks image, network and setup; you keep full control.

VPSTTT

CONFIGURATIONS AND USE CASES

CPU lines	Intel Platinum 8272CL, AMD EPYC 7J13, AMD Ryzen 9 9950X, Intel Gold 6144
vCPU / RAM	1–96 vCPU, 1–256 GB RAM
Storage	Enterprise NVMe, 20–500 GB
Network speed	10 Gbps, dedicated IPv4/IPv6
Backups	Twice a week
Operating system	Scientific Linux 7.4

Great for

- Simulation and legacy specialist apps
- Batch jobs and reproducible results
- Packaging before a platform move
- Isolating version-sensitive work
- Labs and research teams

VPSTTT

WHY CHOOSE VPSTTT?

Tier III data center infrastructure

Servers hosted in standard data centers with redundant power and cooling.

24/7 technical support

Our engineers are on duty around the clock via hotline, Zalo, Messenger and tickets.

Fast setup, self-service

Order, pay and manage your services directly in the client area.

Clear policies

Transparent service level agreement (SLA), refund and privacy policies.
