VPSTTT

WHAT IS VPS UBUNTU?

VPS Ubuntu is a virtual server set up for fast deployment of Ubuntu 14, 18, 20, 22 and 24, with its own CPU, RAM, storage and IP and full admin rights.

Ubuntu offers a rich package ecosystem, extensive documentation and LTS releases suited to long-running servers, making it a fit for websites, Docker, Kubernetes, Node.js, Python, Java and databases.

At VPSTTT you choose one of four hardware lines: Intel Platinum, AMD EPYC, Ryzen 9 or Intel Gold, and scale resources as your system grows.

Ubuntu 24

Ubuntu 14, 18, 20, 22 and 24 preinstalled

10 Gbps

Network port, enterprise NVMe storage

24/7

Technical support, regular backups

VPSTTT

VPS UBUNTU HIGHLIGHTS

1

The right Ubuntu version

Images for Ubuntu 14, 18, 20, 22, 24; switch OS before ordering.

2

APT and cloud-init

Familiar packages; standard users and SSH keys across many VPS.

3

Built for cloud-native

Docker, Kubernetes, Node.js, Python and Java are well documented.

4

LTS releases first

Predictable update cycles for long-running production servers.

5

Enterprise NVMe

Fast reads and writes for web servers, APIs, CI/CD and containers.

6

Deployment support

VPSTTT checks image, network and setup; you keep full control.

VPSTTT

CONFIGURATIONS AND USE CASES

CPU lines	Intel Platinum 8272CL, AMD EPYC 7J13, AMD Ryzen 9 9950X, Intel Gold 6144
vCPU / RAM	1–96 vCPU, 1–256 GB RAM
Storage	Enterprise NVMe, 20–500 GB
Network speed	10 Gbps, dedicated IPv4/IPv6
Backups	Twice a week
Operating system	Ubuntu 14, 18, 20, 22 and 24

Great for

- Web, APIs and cloud applications
- Docker, CI/CD and automation
- Moving from shared hosting to VPS
- Nginx/Apache, PHP, Node.js, Python
- DevOps teams standardizing operations

VPSTTT

WHY CHOOSE VPSTTT?

Tier III data center infrastructure

Servers hosted in standard data centers with redundant power and cooling.

24/7 technical support

Our engineers are on duty around the clock via hotline, Zalo, Messenger and tickets.

Fast setup, self-service

Order, pay and manage your services directly in the client area.

Clear policies

Transparent service level agreement (SLA), refund and privacy policies.
